

Ease the Pressure of Travelling

- ✓ Leave my carrier out at home for a few days before I travel, with treats and comfy bedding. Let me enter in my own time - I'll soon get used to it!
- ✓ Covering my carrier can help me feel more secure - but please make sure there's good airflow
- ✓ Once I like my carrier, try me in the car. Switch on the engine and even take me for a little drive (don't forget to strap me in!) - treats can help too
- ✓ At our destination, keeping my carrier off the floor helps me feel less threatened

This carrier belongs to:

Please spray my blanket with

 **FELIWAY**[®]

15 minutes before I go in –
it helps me relax and
enjoy the trip!

You can also spray anything used to cover my carrier or even the inside of the car itself, so I feel more comfortable there.
